VOLUME IV. EDMONTON, ALBERTA, THURSDAY, MAY 10., 1906. NUMBER 110

FIRST SESSION OF LEGISLATURE FORMALLY PROROGUED YESTERDAY

Members are Scattering to Their Homes To-day. Prorogation Ceremony Less Imposing than Opening Day

The ceremony of proroguing the legislature was gone through with yesterday afternoon and today the members are scattering for their homes, to meet again in August when the provincial tour takes place.

The prorogation proceedings, according to the custom, are very simple and unostentatious.

The members take their seats and the lieutenant-governor is announced by an aide. The speaker vacates the chair to the governor. The members stand up and the speaker reads:

"May it please Your Honor:

"The Legislative Assembly of Alberta in Session assembled, approach "Your Honor at the close of our labors "with sentiments of unfeigned loyalty, "and humbly beg to present Your Hon"or's acceptance of a Bill intitled An "Act for granting to the Lieutenant "Governor certain sums of money for "the public service for the financial "years ending respectively the thirty"first day of December, 1905, and the "thirty-first day of December, 1906, "and for other purposes relating there"to; thus placing at the disposal of "the Lieutenant-Governor the means by "which the Government can be made "efficient for the service and welfare "of Alberta."

The supply is accepted by the governor and the clerk proceeds to read the titles of the bills passed, which are assented to by the governor.

The governor then reads his address, which is a formal acknowledgement of the service rendered by the House in passing such important legislation, a hope that it will work out to the benefit of the country, a promise that the funds will be economically expended and a prayer that all may be spared to return to their duties at the next session.

One of the ministers then announces that it is the will of His Honor the Lieutenant-Governor that the House stand adjourned to Thursday, the 9th day of August next.

The date given, of course, bears no real relation to the date on which the House will meet, but is mentioned merely as a fixture. From the 9th of August, the lieutenant-governor in council may further adjourn to some later date, and so on until the date of the next sitting is announced. The earlier date is merely mentioned to guard against peradventure—in case they should want to meet early.

Many of the members are leaving for their homes today, and nearly all will be out of town before the end of this week. Mr. Telford, the member for Leduc, went home last night and Mr. Macpherson of Stony Plain, also drove out to his home.

Mr. Hiebert, of Rosebud, leaves today for his home at Didsbury where he intends to commence at once the construction of a 75 barrel roller mill to have it in operation for this season's crop.

Hon. W. H. Cushing will leave in a day or two for the Kootenay country in B. C., to spend a week or so. After that he and the Premier will go to Ottawa to interview the Federal government on matters of interest to the governments, especially the irrigation question. At the present time the irrigation is in a rather paradoxical position, as the streams are under the control of the federal authorities, and parties applying for a water record must apply to Ottawa, but as soon as the water is led away from the stream onto the land it comes under the jurisdiction of the provincial government.

Mr. W. H. McKinney will also spend most of the summer out of town. He intends to take his family for a trip to the coast, spending a holiday in Vancouver.

(Continued on page four.)

RAILWAY RACE ON IN EARNEST

Grand Stampede for the Yellowhead to Survey Route for Crossing Continental Divide. Three Roads and a Possible Fourth

It looks as though the big race is on for the Yellowhead pass between at least three and possibly four of the great transcontinentals, and that the pace will increase from to-day until the final chapter, when plans are filed at Ottawa.

The developments of this spring seem to have been a surprise all around, even to some of the top notchers in the railroad world, and the developEdmonton, consigned to the Jasper the prettiest race in the history of railroading in Canada, if not on the continent.

For the two or three years past during which the G. T. P. has been surveying in the west, and up till a late date last autumn the G. T. P. men appeared to be paying all attention to the northern passes, the Peace, the Pine and the Wapati. The Yellowhead was hardly considered. When snow came last fall and the overland trails go good a new phase of the G. T. P. policy developed. Tons and tons of supplies were quietly shipped out of Edomnton, consigned to the Jasper House, the Henry House, Jock's ranch and other places in the Yellowhead. When spring commenced to open up Division Engineer Van Aredal quietly slipped out to the coast, and, according to the coast papers, dispatched half a dozen strong parties for the country up the Frazer, with rendezvous at Tete Juan Cache and Fort George. This week the activity has been transplanted to this side of the mountains and surveying outfits are treking for the mountains in great haste. Yesterday the first big party, under Engineer Bergen, started for the mountains, headed direct for the Yellowhead. They had 30 pack animals and 15 men in the survey outfit, exclusive of mule skinners. To-morrow W. Featherstonhaugh starts out with a heavy outfit for the same field, and F. C. Bowell will follow in a few days, with other parties to go out during the coming week. Before the middle of the month there will be a dozen or more parties in the mountains going over the old Moberly surveys of 20 years ago, and laying out a route across the continental divide.

In the meantime the Canadian Northern has awakened and there is a great hustling around in the survey department of that road. Chief Engineer McLeod is in Winnipeg consulting with President McKenzie, and at the same time J. Chalmers, deputy chief is in the city, rushing an outfit together and preparing to leave for the west. He will pull out on Monday with twenty-five or thirty men and an outfit to stay all summer. The G. T. P. has a manifest advantage in having gotten its supplies through to the pass while the trails were good, and it will be by no means a summer pastime for the C. N. R. men getting through over the summer trail. Rumor saith that the Chalmers outfit is only the vanguard of what will be sent out in the immediate future.

While all this is going on on the east side of the range, coast despatches indicate that wily James J. is not losing any time. Half a dozen parties had already been started from Vancouver for the Upper Fraser country via the Ashcroft and Kamloops trails. Only a few days ago the charter for the V. W. & Y. from Vancouver to Edmonton passed the Dominion House, and it is to lay out the plans for this route that the Hill surveyors are going into the hills.

Between the three companies, camping ground is likely to be at a premium in the oYellowhead this summer. But this is not all. From Wetaskiwin comes the story of C. P. R. men hastily outfitting for the west. The Yellowhead is directly west of Wetaskiwin and nearer that city than to Edmonton. The inhabitants of the little city feel confident that the C. P. will push the Wetaskiwin - Winnipeg branch westward toward the pass to make them a third line paralleling the Crow's Nest and the Kicking Horse lines.

That there will not be room in the Yellowhead for all three roads or the possible fourth, is the feature which makes the race exciting. The road which gets to Ottawa first and gets its plans filed will naturally get the choice of location. Until the last chapter it will be a pretty race — and there is no eight-hour law for engineers this summer.

—The lacrosse match to-morrow will be played under the patronage of Lieut.-Governor Bulyea, who will face the fall at 6.30.

BALLASTING ON THE C.N.R.

Work Train Started Out Yesterday. Gang Employed in Local Yards. Workmen Scarce in City

The first C. N. R. work-train for the western end of the line was started out from Edmonton yesterday for Innisfree, east of Vegreville, to commence ballasting toward the city. There were only one hundred men in the gang, but the crew will be added to as fast as possible. Another ballast train is working out of Humbolt toward the west, with about 150 men.

In the local yards, a work train is busy hauling ballast onto the E. Y. & P. switch line and the switch crew is getting the yards into shape for permanent work.

ALBANI CONCERT

The musical public of Edmonton certainly had a rare treat last night, when Madame Albani and her splendid company of artists appeared at the rink. The great Canadian contratice both delighted and astonished the audience by the brilliance and purity of her voice, and everyone in the immense audience must have gone away with a feeling of genuine regret that this should be her "farewell" to the country of her birth.

The Lieutenant-Governor's party, including His Honor the Lieutenant-Governor and Mrs. Bulyea, Premier Rutherford and Mrs. Rutherford, Attorney-General Cross and Mrs. Cross, Mr. Babbitt and Capt. Worsely, A.D.C., occupied seats in the centre of the hall and upon their arrival the vast audience rose to the strains of the National Anthem, played by Mr. Frank Watkis.

Mozart's beautiful aria "Non Lemer" was sung with that splendid abandon for which "our" Albani is so noted and in response to the spontaneous outburst of applause, gave the Bach-Gounod "Ave Maria" with intense devotional feeling. In both of these items she was greatly assisted by Mr. Haydn Wood, who played the violin obligatos magnificently. Wallace's "Crossing the Bar" was another fine example of emotional singing, which was followed by the ever welcome Scotch ditty "Wi'h-Later in the evening Madame Albani sang Arditi's waltz song, "Rosebuds" and Foati's "Good-bye" which received the customary demand for "more", and was responded to by a little French song "Souvenir" (a great treat for Madame's French admirers in the hall) and "Home, Sweet, Home", which was sung as only Albani can sing it. Altogether the evening was one of great triumph for the greatest singer Canada has ever produced. Of the accompanying artists it is difficult to speak to highly where all were so superlatively fine, but special mention should be made of the two instrumentalists, Miss Adele Verne (piano) and Mr. Haydn Wood (violin). Their playing was certainly most wonderful. Miss Verne's rendering of the Liszt "Rhapsodie" was a revelation to her auditors, and proved what is claimed for her, that she is one of the greatest lady pianists in the world. Mr. Wood proved himself a past-master in the art of violin playing, and his very masterly rendering of the different solos will long be remembered by those fortunate enough to hear them. Miss Eva Gauthier (another great Canadian) is gifted with a fine voice, which gives great promis of a successful career. She pleased her audience especially in the Rossini Arlo "Bel Rajjio". Mr. Archdeacon was unfortunately suffering from a cold, and was hardly able to do himself justice, but from what we heard, we would certainly like to hear him again. He aroused the enthusiasm of the audience by a fine rendering of Stephen Adam's Song "The Veteran Song". Mr. Frank Wakis, by his sympathetic accompaniments completed the perfect enjoyment of the large and fashionable audience, and the whole concert must be ranked as perhaps the greatest success Edmonton has ever known.

SOCIAL AND PERSONAL

Mrs. Bower Campbell was a "bridge" hostess yesterday afternoon. Mrs. Campbell looked very well in a smart white suit. There were six tables surrounded with players and Mrs. Burford carried off the prize.

Mrs. Duncan Marshall gave a very delightful tea on Tuesday in honor of Mrs. Simmons, of Lethbridge. Mrs. Marshall was wearing a dainty white silk eolienne.

Miss Grace Johnson was the hostess of a young people's dance Tuesday evening. Miss Johnson wore a pretty dress of cream. Among those present were Mr. and Mrs. Barford, Misses Webster, Sommerville, Oliver, McLean, Hooper, Taylor, Robertson and Messrs. Douglas, Fraser, Tolehard, Anderson, Madill and others.

Mrs. McMahon entertained at bridge yesterday afternoon in honor of Miss Oliver. The hostess welcomed her guests wearing a handsome blouse of fine white organdie, with which was worn a skirt of rich black silk. Miss Oliver was the winner of the first prize and Mrs. McPherson the second.

TRAIN ROBBER HELD UP C.P.R TRAIN NEAR KAMLOOPS LAST NIGHT

LATE TELEGRAPHIC BRIEFS

GOULD DEFEATED.

London, May 10.—At the Queen's Club to-day, after victories over the leading British tennis experts, Jay Gould, of Lake Wood, N.J., went down before the world's champion, Eustace Miles, in the championship round, the latter winning the match by three sets to one.

CHESTER CUP WINNER.

London, May 10. — The Chester cup to-day was won by Featherbed, starting at 11 to 4; Torpent was second, 7 to 9; and Rap third, 33 to 1. 15 horses ran.

FATAL SHOOTING.

Forto Francis, May 9.—As the result of a shooting affray which took place near Laurel, Bear River, Minn., the victim, one Hemming, succumbed to his injuries to-day at International Falls, Minn. The shooting occurred after a drinking bout. The bullets penetrated Hemming's stomach and kidneys and there was little hope from the first. His assailant, Johnston, has been arrested and will be sent to Grand Rapids, Minn., to be tried on a capital charge.

BERLIN ANARCHISTS CAUGHT.

Berlin, May 10. — Five anarchists charged with high treason have been arrested near Metz. The men had explosives in their possession and a quantity of dynamite was found near the Imperial Palace, where Emperor William is expected to arrive.

Masked Men Held Up West Bound Trans-Continental and Rifled the Mails, but Made only Small Haul. Express and Passengers not Interfered With

Winnipeg, May 10.—A daring hold-up occurred last night on the main line of the C. P. R. nine miles east of Kamloops, B. C. Shortly after 11 o'clock robbers stopped the west bound transcontinental No. 97 and after making the engineer stop the train at the point of revolvers, ran the mail car two miles ahead and rifled the mails and baggage, securing valuable letters and money. The news of the hold-up was received at the general office here, but was of the most meagre character. The chase after the robbers is in progress, but no news of their capture has been announced.

The following dispatch was received from Vancouver: "The C. P. R. train was held up by robbers at 11 o'clock nine miles east of Kamloops while waiting on a siding. From present information the robbers got away with the mail but made no effort to steal from the passengers."

The Company's official statement of the hold-up is as follows: "About midnight last night three armed men, who had evidently been riding on the blind end of the mail car, walked over the tender of the engine when the train was at mileage 116, east of Kamloops, and at the point of a revolver had the engineer stop the train. The mail car was cut off and run ahead about the hold-up was an utter failure, for after which the engine was moved about a mile and a half ahead and the robbers left the train.

Winnipeg, May 110.—Further particulars regarding the robbery show that the hold-up was an utter failure, for only seven registered letters, all for Victoria, B. C., were stolen. Mail Clerk Thorborn who was on the train, is of the opinion that Bill Miner, the man to whom the Mission Junction successful train robbery of September 2, 1904, is credited, is the man who held up yesterday's express. Rewards are offered for conviction of the hold-up men tootalling $11,00 as follows: C. P. R. $5000, Dominion Government $3500 and British Columbia Government $2500.

The train had left Ducks, a small station east of Kamloops, and when the engineer happened to look around he was staring down the shining barrel of a revolver. In obeyance to the order of one of the masked men, backed by the two others, the train was brought to a standstill and the robbers compelled the fireman to go back and uncouple the combination mail and express car and with it the engine was run down the track over a mile, leaving the passengers undisturbed. One ruffian carried a big package of dynamite for the purpose of blowing the safe. The robber in command asked specially for the registered mail for o 'Frisco and was much disappointed at being told that the striped sacks were not in sight. Just as he was going through the mail section of the combination car one of the other highwaymen told him that the express car had been left down the track with the other part of the train and the safes were in that. This information was received with oaths and the dynamite was left beside the track unused. The robbers then ordered the engineer to run another mile down the track where they came to a place where the road agents' horses were, and they left the engine with a parting injunction to the crew to hurry back to the cars, which they did, the train being delayed only half an hour.

INDEMNITY BILL DISCUSSED

Mr. Boden Hands Billy McLean a Few Reminders of His Sudden Conversion

Indemnity bill again discussed

Ottawa, May 9—The debate on W. F. Maclean's bill to restore the sessional indemnity to what it was before last session and to do away with ministerial pensions was resumed in the House this evening by Armstrong of East Lambton. He had no apologies he said for having accepted the increased indemnity. Dr. Sproule complained that the indemnity and pension bills were introduced at too late a date last session.

The indemnity was defensible but the pension bill was wholly indefensible. Mr. Bourassa said nearly all the members of the House signed the round robin and they were all equally responsible for the increase. He was not present in the House when the bill was passed and though he did not sign the round robin, he was going to take his share of the responsibility. As to pensions he was opposed to giving it to those who did not require it.

Sir Wilfrid Laurier said the Government was responsible for the legislation. The Opposition was also responsible by their silence or lack of criticism. As to the salary of the leader of the Opposition he had nothing to add beyond what he had already said to add beyond what he had already said. Canada was the first country to recognize the leader of the Opposition as part of the constitutional system. As to the indemnity those members who were not present when the bills were before the House, had the right to oppose it now, but that could not be said of Mr. Maclean. Sessions were now 5 and 6 months long and $2,500 was not any too much in the way of remuneration. Coming to the pension to ministers as to judges. The English pension act ought to be a model act. He had some hesitation last year in accepting that part of it which made it necessary to apply for it. The Canadian act was made mechanical. A feature of pensions in Britain was that the Prime Minister decided who should and who should not get them. He would not like to have that responsibility put upon him. At any rate he had asked the Minister of Justice to see how the act would be amended. The act would be subject to review.

Mr. Lennox. "I would like to know if the Government intends amending it?"

Sir Wilfrid Laurier. It will be removed altogether or amended."

Mr. R. L. Borden took his full share of the responsibility and he made a strong argument in favor of the increased indemnity. He gave figures ing the reduction that had been made when the indemnity had been increased. The question was whether the indemnity will be right or wrong. He did not object to anyone thinking that it was right last year and now changing their minds because of new light. But how much new light did Mr. Maclean get from the time the bills were passed until he hatched that article in the cellar against the increase. There never was such a sudden conversion as that of Maclean. He would go further and make members sign the record daily the same as in Australia. As to his own salary he had nothing to do with it. It was referred to a sub committee for his own side in which all the provinces except two, and there were no Conservatives for those, were represented. It was an immense falsehood for anyone to say he had anything to do with it, yet some remarks of this kind had been made in his own province. He favored the English system for pensions except perhaps the objectionable feature mentioned by the Premier.

There were only nine voted for Maclean's bill, eight Conservatives and one Liberal. Those who voted yea were: Blain, Maclean, Bare, Lalor, Welsh, Wilson, Elson, Christie, Conservatives, and McIntyre Liberal. The remainder of the House voted nay. The vote stood 9 for and 106 against.

NORMAL EXAMINATIONS

Strathcona

STRATHCONA SCHOOL REPORT

Honor Roll for the Month of April in The Schools Across the River

Strathcona, May 9.—Mr. J. Walters' commenced the season's operations yesterday. They propose running day and night, or 20 hours out of the 24, and can cut 75,000 feet during the 20 hours' run. They have about 12,000 logs in the boom now and are anxious to keep the mill running night and day for a time to fill the many orders already received and which are coming continually. Building operations are so extensively carried on at the capital and other places down the different lines of railway that material cannot be procured to supply the present demands.

Mr. Williamson, late of Roland, Man., is at present at the Commercial Hotel here. He came up from Roland, where he has been farming for a number of years, to see Norothern Alberta and to have a vacation for a few months. He is so well pleased with our climate, soil and immediate future prospects that he has already invested here and is considering the wisdom of turning all his Manitoba possessions into cash and investing the proceeds in Northern Alberta.

Mr. Wm. Scott, late of Sault Ste Marie, Ont., who has been at the Alberta here, has gone out to Fort Saskatchewan to visit friends for a few days. Mr. Scott is a builder and contractor, and purposes at an early date to go into that business at the capital.

Mr. J. Coulson, stock dealer and liveryman, has just received a consignment of over 50 horses from the Pacific province and Southern Alberta. The bulk of them are saddle and driving horses, many of which he has already sold. He reports a very brisk demand for all kinds of horses and prices ruling very high.

A C. P. R. railway outfit passed through town yesterday morning. There were over sixty men in the gang and thirty teams loaded with construction appliances. We understand the objective point is Dayaland, on the Wetaskiwin branch of the C.P.R.

Night Policeman Harris captured a bunch of six Galicians Monday night. It appears there had been a Galician wedding in town, which accounts for the round up of so many. They were making the night hideous with their howls when the policeman appeared on the scene and took them to the coop. Magistrate Connelly taxed each man $1 and costs in the court next morning.

Miss Lyle, of the Duggan street school staff, is ill this week and Miss Grace Ritchie is acting as substitute.

The Garrick Club purpose repeating "Dandy Dick" in Ross Hall on Friday evening, May 11.

The following is the official result of the examination for engineers' certificates held by Mr. David Fraser, Provincial boiler inspector, in Strathcona April 2nd, 1906:

Obtained 2nd engineer's certificate—H. P. Tardrew, Edmonton, Fred D. Adair, Edmonton.

Granted 3rd class engineer's certificate—J. B. Davis, Edmonton, R. B. Walker, Strathcona, W. J. Hunter, Fort Saskatchewan, T. J. Edmonds, Edmonton, P. J. Hobson, Strathcona, A. W. Nelson, William Whittaker and J. E. Adair, Edmonton. Six candidates failed in their examination. There were no candidates for 1st class.

Mr. Ed. Lyne, of Mr. Gainer's staff, left on the C. & E. southbound train at 4 p.m. for Didsbury, to purchase fat stock to meet the requirements of the firm.

Deitz & Main, contractors, commenced to excavate on Whyte avenue today at the intersection of Niblock street and Whyte avenue, where operations ceased last year. They have a large gang of men at work at present, under Mr. Gilliland as foreman.

Mr. Wm. Thompson, of Vegreville district, left town this morning en route for his homestead.

Mr. R. Palmer, of the Fire hall staff, came in over the C. & E. Monday evening from a week's trip to the Battleford district, where he has many friends. He has located in 45-6 and reports much bustle and business along the C. N. R. line. He says settlers are pouring in all along the line where land can be obtained, and that sleeping accommodation is at a premium at all the towns and villages where he remained over night.

TO BOOM THE NORTH.

Carcross, Y. T., April 23.—On Saturday evening the 21st inst. about forty of the business and mining men of Carcross met in the sitting room of the Caribou hotel, where they soon settled down to business and the Ten Thousand Club was born to what will be known as the greatest quartz mining camp in the world.

The club has been organized for the purpose of advertising the town of Carcross, showing the people on the outside that this is one of the finest climates in the world, and induce tourist travel to this country.

DR. PRICE'S CREAM BAKING POWDER

Regular Size 6 oz. can, 20c; Regular Size, large 12 oz. can, 40c. (5 lb. can, largest size packed, is sold at lowest rate.)

Dr. Price's Cream Baking Powder is a pure cream of tartar baking powder, used throughout this country in preference to all others for many years.

A postal card request to Price Baking Powder Co., Chicago, will bring any of our patrons, free of charge, a copy of "Mine and Ranch," a book of useful receipts and suggestions for cooking in camp, at the mine and on the range. When going out of reach of home and the doctor do not take chances with a poor and perhaps injurious baking powder; get the best which we know to be Dr. PRICE'S.

HOW RAILROADS ARE TO BE TAXED

The Full Text Of The Act By Which Railways Are To Pay Their Share To The Public Service.

An Act to Supplement the Revenues of the Crown in the Province of Alberta.

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. Every person, company or corporation owning or operating a line, or part of a line of railway within the Province shall pay a tax in respect of the railway or part thereof so operated and not exempt from taxation, based upon the actual value of such railway or part thereof so operated within the Province, but both the person, company or corporation owning the lines or such part thereof and the person, company or corporation operating or working the said line or part or parts of a line as aforesaid shall be jointly and severally liable for the payment of the amount of such tax to the Provincial Treasurer.

2. The Lieutenant Governor in Council may appoint such persons as he sees fit to ascertain the actual value of such railways or parts thereof within the Province and for the purposes of such inquiry such persons shall have all the powers of a Commission appointed under the Ordinance Respecting Inquiries Concerning Public Matters, being Ordinance No. 12 of The Consolidated Ordinances of the North-West Territories.

3. Until the actual value of such railways or parts thereof has been so determined, and such valuation thereof has been approved by the Lieutenant Governor in Council, or until the Lieutenant Governor in Council otherwise fixes such actual value, the same shall, for the purposes of this Act, be taken to be $20,000 for each mile of such railway, or part thereof, so operated exclusive of switches and turnouts.

4. Every person, company or corporation owning or operating a line or part of a line of railway within the Province, shall without any notice or demand to that effect deliver, in duplicate, to the Provincial Treasurer, on or before the first day of July in the year 1906, and on or before the first day of July in each succeeding year a written statement correctly showing the number of miles of railway line, or part thereof, whether the same is claimed to be exempt from taxation or not, so operated by such person, company or corporation within the Province, and specifying in such statement what portion of the said railway line, or parts thereof, is claimed to be exempt from taxation by the Province, describing such line or part or parts thereof so exempt or claimed to be exempt by reference to stations or points within the Province in such a way as to enable the same to be easily identified, and setting out the number of miles of railway line, or part or parts thereof so exempt or claimed to be exempt; and the authority under which such exemption is claimed.

5. Every person, company or corporation who, or which, and the manager or agent in the Province of any company or corporation as aforesaid who neglects to conform to the provisions of the preceding section shall each be liable to a penalty of twenty dollars per day for each day during which default is made; and the person, company or corporation aforesaid shall also be liable to pay a tax of double the amount for which he, or it, would have been liable under this Act; and any penalty or such double tax may be recovered with costs in any such court of competent jurisdiction in an action brought in the name of the Provincial Treasurer.

(2) In any such action, the said Treasurer shall have the same right either before or after the trial to require the production of documents, to examine parties or witnesses, or to take such other proceedings in aid of the action as the plaintiff has, or may take, in any ordinary action.

6. The Lieutenant Governor in Council may for good cause enlarge the time for making any such return.

7. In default of such statement being so transmitted, or in case the Lieutenant Governor in Council considers that the statement so transmitted is incorrect in any particular, the Lieutenant Governor in Council may, by Order in Council, fix such mileage of such railway or part or parts thereof not exempt from taxation by the Province at such number of miles as he considers correct.

8. The tax so payable shall be one per centum of such actual value of such railways or parts thereof so fixed or determined as hereinbefore provided.

9. Such taxes shall be payable to the Provincial Treasurer on the first day of September in each year.

10. In cases of default in payment of any taxes by this Act imposed the same may be levied and collected with costs by distress upon the goods and chattels wherever found of the person, company or corporation liable therefor, under a warrant signed by the Provincial Treasurer, directed to the sheriff or other proper officer of any judicial district in which the person, company or corporation in arrear may have any goods or chattels, and in such case the sheriff, or other proper officer as aforesaid, shall realize the said taxes, or so much thereof as may be in arrear, and all costs by sale of such goods or so much thereof as may be necessary to satisfy the said warrant and costs; or the said taxes, or the penalty and double tax provided by this Act, or may both at the option of the said Treasurer be sued for and recovered with costs in any court of competent jurisdiction in an action to be brought in the name of the said Treasurer, and in such action the statement of mileage, or order in council, referred to in sections 3 and 7 hereof shall be *prima facie* evidence of the number of miles of railway line, or part or parts thereof not exempt from taxation by the Province so operated as aforesaid in the Province by the person, company or corporation against whom or which such action is taken.

11. This Act shall come into force upon the day it is assented to.

Are you a success as a bread-maker? Is your cake and pastry complimented by your friends?

If not, whose fault is it—yours or the miller's. If you are successful in other lines, your reputation as a cook is vindicated, and it is plainly the fault of the flour.

Look up the good bread and pastry makers of your acquaintance and get their flour experience.

You will find that most of them are using

Royal Household Flour

gladly paying a little more per barrel for it and getting for that extra cost a purer, better flour. For bread or pastry, it has no equal.

Ogilvie's Royal Household—repeat the name to your grocer.

Ogilvie Flour Mills Co., Ltd.
Montreal.

"Ogilvie's Book for a Cook," contains 130 pages of excellent recipes, some never published before. Your grocer can tell you how to get it FREE. 153

THURSDAY, MAY 10, 1906.

CONSERVATISM.

The Lethbridge News is considerably excited because two hundred and ten applications have been made for the privilege of developing Alberta coal lands. The incident is a fair illustration of the general preference of our Conservative friends for conserving natural resources in the condition of natural uselessness. The suggestion classes well with the proposal of Lr. Sproule, that the native beauty of the prairie should be saved from the defiling hands of the unromantic settler and with the performance of Premier Whitney of Ontario in giving a half million acres of land to the Grand Trunk Pacific to keep the settlers off another half million acres.

DOMINION FOREST PRESERVES

A bill is now before the Federal Parliament providing for the establishment of forest preserves in the provinces of Manitoba, Saskatchewan and British Columbia. In the Province of Manitoba there are to be six reserves, known as the Riding Mountain Reserve, the Turtle Mountain Reserve; the Lake Manitoba West Reserve, Spruce Woods Reserve, Duck Mountain Reserve, and Porcupine Mountain Reserve. In Saskatchewan three reserves are to be established, the Beaver Hills Reserve, the Pines Reserve and the Moose Mountain Reserve. In British Columbia only one reserve is proposed, the Long Lake Reserve.

The purposes of the bill, as set out in the preamble are: "To protect and "improve the forests for the purpose "of maintaining a permanent supply of "timber, to maintain conditions favor-"able to a continuous water supply, and "to protect, so far as the Parliament "of Canada has jurisdiction, the ani-"mals, fish and birds within the res-"pective boundaries of such reserves, "and otherwise to provide for the pro-"tection of the forests in the said prov-"inces."

To this end the Act provides that "all Dominion lands within the respec-"tive boundaries of the reserves men-"tioned in the schedule to this Act are "hereby withdrawn from sale, settle-"ment and occupancy under the pro-"visions of the Dominion Lands Act, "or of any other Act, or of any regu-"lations made thereunder with respect "to mines or mining or timber licenses "or leases or any other matter whatso-"ever, and after the passing of this Act "no Dominion lands within the bound-"aries of the said reserves shall be "sold, leased, or otherwise disposed of, "or be located or settled upon, and no "person shall use or occupy any part "of such lands, except under regula-"tions made under this Act."

It is further proposed that: "The said "reserves are hereby set apart and es-"tablished and shall hereafter be and "be known as Dominion Forest Re-"serves, for the maintenance and pro-"tection of timber growing or which "may hereafter grow therein, and for "the protection, so far as the Domin-"ion of Canada has jurisdiction, of the "animals and birds therein, and the "fish in the waters therein; but sub-"ject to such regulations as may be "made under the provisions of section "4 of this Act."

Section four reads: "The reserves "shall be under the control and man-"agement of the Superintendent of "Forestry, or such other person as is "from time to time in charge of for-"estry in Canada, subject to the direc-"tion of the Minister of the Interior; "and the Governor in Council may "make regulations, not inconsistent "with the provisions of this Act, for "the maintenance, protection, care, "management and utilization of such "reserves, and of the timber and min-"erals therein, and, so far as the Par-"liament of Canada has jurisdiction, of "the animals and birds therein, and the "fish in the waters therein, and for the "prevention of trespass thereon."

The bill is the outcome of the Forestry Convention held in Ottawa a few months since, in which the necessity of preserving the forests of the country was the dominant theme and at which convention legislation towards this end was foreshadowed by the Premier. The purpose of the Act, as indicated in the preamble, is not only the husbanding of the timber resources, but the maintenance of the timbered areas in the prairie country which have a very marked effect on the climatic conditions of the adjacent districts.

DISCRIMINATING AGAINST THE NORTH.

The expected has happened in the elevation of the price of C. P. R. land along the line of the Canadian Northern Railway and the proposed line of the Grand Trunk Pacific. The possibility of such course was foreshadowed in press despatches some time since but was somewhat discounted by the protestations of the land officials of the company who professed complete ignorance of any such contemplated policy. Events however have proven the company worse than its employees believed it and the land in the country to be traversed by those lines has been generally advanced to prices far in excess of the general price of farming land in the districts affected, of the price of similar land held by the company along its own lines and even of the price of the land in Southern Alberta to irrigate which the C.P.R. has spent a fortune.

Upon what pretext this excessive advance has been made is not announced. That it is unwarranted even by the general increase in western land values cannot be denied. That the company considers it warranted by the superior quality of the land along the new lines is not likely to be proclaimed for it has been no part of the policy of that company to exaggerate or advertise the value of land in the Saskatchewan valley as compared to that of the country traversed by its main line and southern branches. Still less likely is it that the increase will be attributed to superior railway facilities, for however penitent the C.P.R. may be it is not probable the company will admit the inferiority of its roadway or service to that of a line in operation only six months and of another line not yet built.

Whatever may be the alleged purpose the country will see the real purpose in the results which such a move is likely to produce. And unless the law of cause and effect be suspended that result will be the interruption of the settlement in the northern portion of the new Provinces and the concentration of settlement in the country immediately tributary to the C.P.R. While immigration has been induced by free homestead the location of the new settlers depends largely on the comparative price of farming land in the various districts of the West. The tendency in Western Canada is toward large farms and few homesteaders will settle in a district in which adjacent land is held at exorbitant figures if homesteads approximately good can be secured in a district where additional land can be purchased at a reasonable price. More than this the rush is bringing to the West multitudes who prefer to buy land at reasonable prices in well settled communities than to locate homesteads in well settled communities. Practically all therefore of the settlers who come to the west are directly or indirectly interested in the price of unimproved land held for sale and other things being approximately equal or reasonably similar, the bulk of the new-comers will settle in those districts in which land can be purchased more cheaply. That this fact was duly considered by the C.P.R. in fixing the comparative prices of their lands along their own and competing lines is quite in accord with reason and with the history of the company, whose policy has not been to settle the West, but to gather to itself the fruits of whatever settlement has taken place in the West with a scrupulous disregard for the consequences to both settlers and country.

That the C.P.R. should prefer the settlement of the country along its own lines is quite readily understood; that it should endeavor to secure such settlement is both right, and proper; that it should endeavor to do so by discriminating against other sections of the West is neither right nor proper but is evidence that only by so discriminating can its purpose be accomplished; that it should have the power to so discriminate and that there should be no legal or administrative means of preventing such discrimination is a misfortune for which the settlers and the country may thank the party which bestowed the power upon the corporation which has stooped to utilize it.

AGREEMENTS RATIFIED

One of the last questions which faced the legislature and on which depended entirely on the parties interested for a satisfactory settlement was the matter of the franchise of the Western Electric Co., and the telephone company in Red Deer.

The affair came up in the application of that town for an amendment to the charter. It appears that several successive agreements, dating from 1903 to the present time, have been made with the light and telephone companies and the city, but that here was a question as to the city's power to make such agreements. Among other things one of the agreements gave the company a 25 year franchise. When the amendments came in Clause 102 was altered, on motion, to provide for what Mr. Hiebert of Rosebud, considered an interpretation of the company's agreements with the city and he spoke for an hour on the subject, making a very forcible speech against what he considered retro-active legislation.

Mr. Stuart, of Gleichen, who had been on the committee when the amendments went through, contended that there was no intention on the part of the legislature to interpret the agreements, but only to ratify them. No one denied the existence of the agreements and no one questioned the moral obligation. In order that there might be no misconception about the purpose of the clause he moved the following for 102:

"The agreements between the Town of Red Deer and the Western Telephone Company, Limited, and the Western General Electric Co., Limited, set forth on the schedule hereto, are hereby ratified and confirmed and declared to be binding upon the parties thereto and the said town shall be deemed to have had at the dates of the said agreements respectively full power and authority by its officers to grant the rights and privileges thereby intended to be conferred."

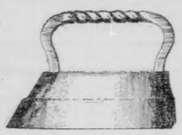

The mayor and members of the Red Deer council, who were present, were consulted and stated that the clauses as drafted was satisfactory to them, and as it satisfied the electric companies, it went through without amendment.

FIRST SESSION PROROGUED

(Continued from page one.)

Mr. McKenzie, of Macleod will probably leave for home today. His most ardent wish at the present moment is that the members all show up on the occasion of the summer tour throughout Southern Alberta.

Most of the other southern members are leaving for home today although all say that their eight weeks' stay in the city has made them feel so much at home here that they will be back to visit the capital several times during the summer.

The Exchange Mart Company,

EDMONTON.

Next to Grand View Hotel. Phone 400.

At the above place you may sell almost everything you may have to dispose of. You may obtain spot cash or leave your property for sale on commission, or obtain an immediate loan to tide you over that little embarrassment. It matters not what the property consists of, whether household effects, farm implements, gold, silver plate, china, pictures, books, furs, buggies, wagons, harness, curios, sewing machines, musical instruments, guns, revolvers, silks or jewellery. If the article possesses a value and you wish to sell, ask the Exchange Mart its value. Whether they buy or not they will tell you. If you are leaving the city you may sell at a few hours' notice the entire outfit for spot cash, or the Mart will sell your effects by auction on your own premises.

Are designed to give the greatest freedom of action and general comfort.

They are well and strongly made, look natty, and come in hundreds of printed fancy weaves.

In summer weather they are very comfortable and quite the correct thing for business and general wear.

Careful dressers for more than a quarter century have always demanded Tooke Shirts.

GOOD PRICES FOR CATTLE AT CALGARY SHOW AND SALE

Prize Winners At Pure Bred Cattle Show, Provincial Horse Show And Fat Stock Show

Calgary, May 9.—The sale held in connection with the annual exhibition of the Alberta Cattle Breeders' Association was concluded this afternoon. Never before in the history of the cattle industry in Alberta was there a better class of animals shown, and never before were better prices realized for pure bred bulls. Ninety-four Shorthorn bulls were sold at an average price of $94. Thirty-six Herefords averaged $140 each. Eight Aberdeen Angus averaged $138 each. Only two Galloways were put up for sale, and they brought $85 apiece. The grand average for the total number of bulls sold amounts to $108. A very great majority of animals put up for sale were yearlings and two year olds. Average prices realized at the annual exhibitions held since 1901 are as follows:

Year 1901, average $81.17.
Year 1902, average $95.75.
Year 1903, average $96.38.
Year 1904, average $93.98.
Year 1905, average $69.59.
Year 1906, average $103.50.

No stallions have been put up for sale by auction, but there has been a brisk demand for Clydes, Shires, Percherons and Hackneys by private sale. Good animals in each class realized good prices and many sales were made during the past three days. The heavy classes are in greatest demand. Expert Judges have declared Teddington Magnifico," an Albertan bred hackney, to be one of the best of his class in Canada.

Calgary May 10.—The second day of the stock show passed off with entire success. The feeling of success was in the air and everything went with a rush. The horses seemed to be affected with the general good spirits and put on their prettiest manners. Early in the day the prize-winning stallions were paraded through town gally decorated with ribbons and flowers. The equine beauties really seemed to feel the honor of their position.

Quite a sensation among the horsemen were caused by the hackney stallion Teddington Magnifico exhibited by John A. Turner. It is one of the most beautiful horses ever seen in Calgary. It captured first for hackney three-year-olds, the prize for the best hackney stallion and the sweepstakes for the best light stallion of any breed.

Barie A .E. exhibited by John A. Turner also did well, capturing the first for the best Clydes stallion and the championship for the best heavy draft stallion in the show.

The feature of the day was the opening of the pure-bred cattle sale. Excellent prices were realized, especially for young stock.

Forty-three shorthorn bulls were sold at a total price of $4,145 and an average price of $96.37. The lowest price was $50 the highest $365. Last year the average price of the first day's sale was only $79.30. The lowest price was $35, and the highest price for the champion shorthorn $285.

It was of course the champion of Alberta ,Crimson General, who brought the top price of $365, the highest price ever realized for a native bull. The bidding became quite sensational when the handsome animal was put up and many envious eyes followed him as he was led away. H. W. Metcalf of Lacombe was the purchaser.

J. A. Markle, the Indian agent at Gleichen was a heavy purchaser. He secured twenty bulls for the reserve at prices ranging from $50 to $140.

A list of the prize-winners follows:

PURE BRED CATTLE

Class 1—Shorthorn Bulls, three years and over.

First—Bachelor, F. W. Findlater, Lacombe.

Second—Greenbank Chief, H. W. Metcalf, Lacombe.

THE LEGISLATORS GREW FROLICSOME

The last day of the legislature was a busy, not to say strenuous one, and the last few moments were open war. The order paper, when the House met on Tuesday [illegible] was a fragment-able list of legislation to be considered, but at 10 o'clock the paper was cleared and the business of the legislature was closed for this session.

There was not exactly the decorum of a vestry meeting when the House adjourned. During the evening some of the members were getting just a trifle frolicsome and occasional copies of the land act or the game ordinance went skittering across the hall when the speaker was looking the other way. As the speaker pronounced the words "that this House do now adjourn" the bombardment broke loose. Deputy-Speaker Boyle, shorn of his authority, was the target of most of the missiles, and in about two minutes he was forced into retreat behind a row of Government benches, while members who had been ruled out of order and had other indignities heaped on them during the session, got even for it all by lambasting him with copies of the hardest bills. It is estimated by the best authorities that Hiebert fired seventeen shots a minute and had there been an automatic gun that would handle sessional papers, there is no doubt that the deputy speaker would have been snowed under. The back benches, which have been very placid for the past few days, suddenly galvanized into life and it developed that every member on the team had played baseball in his early days, except possibly Mr. McKenney. He retreated to the lobby and told stories of the rebellion he led against the combined forces of the Government and the Opposition. Marcellus must have been a pitcher in the Trail Blazers' nine some few years back, by the way he handles himself in the box, while John T.'s sonorous voice in "that's puttin' 'em over, old boy," leaves not the slightest doubt as to his youthful predilections.

Pletcher Bredin stopped more missiles with his anatony than any other man in the House and J. A. McPherson stopped the least. This is accounted for by the natural law that a larger man is easier to hit with a paper bomb than a smaller one. The Government benchers were driven into the Conservative committee rooms early in the engagement, and it was only by strategy that the Minister of Public Works escaped a flank movement by the back benchers and turned off onto the Conservative members.

All things considered, there seems to be something to the old adage that "boys will be boys," especially when the strain is suddenly relieved and the work of eight long weeks of a strenuous session is pronounced complete.

MANUFACTURERS WILL MEET IN WINNIPEG

Toronto, May 10.—The final arrangements were made today by the Canadian Manufacturers Association to hold the annual convention of the association this fall in Winnipeg. It has been decided to hold the convention on September 17, 18 and 19. At the conclusion of the sessions a trip to the Pacific coast will be taken.

BIG KENORA MILL

Kenora, May 10.—The contract for building the new flour mill to be erected at the east end of town has been awarded to Archibald and Getchen of Winnipeg. The machinery section was given to Nodyke & Co., of Indianapolis. The contracts total a quarter of a million dollars.

BRITITSH WARSHIPS GATHERING

Athens, May 10.—A British fleet consisting of twenty-one warships is lying at Piercaus with steam up. They will be further augmented by the arrival of the second cruiser squadron commanded by Admiral Prince Louis, of Battenburg.

SEEDING NEARLY COMPLETED

Winnipeg, May 10.—The weekly crop report of the C. P. R., issued today shows that a large number of the districts through which the company's lines pass, seeding operations have been completed, while in other sections a small portion remains unfinished owing to delays caused by the cold weather last week.

Aberdeen, Angus or Galloway Bulls, any age:
First — Canton, R. E. Johnston, Lacombe.
Second—Caroline, J. E. Fay.
Third—Canton Elwood, J. E. Fay.

LECTURE ON METRIC SYSTEM.

The lecture on the metric system of weights and measures to be given under the auspices of the board of trade by Prof. J. C. McLennan of the University of Toronto, in Robertson hall, Edmonton, on Tuesday evening, May 15, forms one of a series which the Minister of Inland Revenue of the Dominion, has invited Prof. McLennan to give throughout Canada, with the object of explaining to the people the characteristics of the metric system of weights and measures, a system which is in use in practically all the great countries of the world, except the British Empire, the United States and Russia. The lecturer will bring with him a complete set of standards of weight, length and capacity, with which to illustrate his remarks. From reports which have been received Prof. McLellan treats the matter in a very simple and interesting way, emphasizing the practical rather than the theoretical aspect of the question.

The subject is one which is of vital interest to the people of Canada, and in view of the agitation now being carried on for the adoption of this system in Great Britain and in the United States, the lecture should prove of wide general interest.

An opportunity will be given at the close of the lecture for discussion, and it is most desirable that there should be strong representation present, both of those opposed to the system, as well as of those in favor of its adoption in Canada.

In addition to manufacturers, merchants and professional men, housekeepers and students should find the lecture of special interest.

INDIAN HEAD VETERAN GONE

Indian Head, May 9.—A. M. McLean died early today. Mr. McLean was one of the oldest and most widely known residents of Indian Head. Together with his brother James, father of Mary McLean, the noted writer, he came west in the early seventies and was for a few years engaged in the boating business on the Red River.

Give an air of confidence and prosperous appearance to the wearer.

The best English Oxfords and Saxet French Cambrics are used, and the patterns are not only exclusive but absolutely fast.

The stitching throughout is straight and uniform. Each operator works on one class of work only, and thus becomes very expert.

Careful dressers for more than a quarter century have always demanded Tooke Shirts.

THE STORY OF AN ACCIDENT

Edmonton, Alta., March 10, 1906.

The Empire Accident and Surety Co., London.

Gentlemen—I herby acknowlege the receipt of your check for $50.00 from your agent, F. A. AYLWIN, being amount of indemnity claimed by me for an injury to my foot received last month.

The claim was forwarded to you less than two weeks ago, and I wish to thank you for the prompt settlement of the same.—Yours truly,

(Signed) R. R. CRONN.

Mr. Cronn met with the accident on February 9th, and the claim was received at the Company's Head Office, March 5th, 1906, for two weeks' indemnity. Cheque was issued for above amount same day, and received in Edmonton by Mr. Cronn on Saturday evening.

WINNIPEG MARKETS.

(The Commercial.)

May 5.

Live Stock.

Cattle—There are some good shipments coming in, and prices are unchanged since last issue. We quote: Best butchers' cattle, 4 1-2c; lower grades 3 to 4c.

Sheep—There are very few moving, and there is no change in the market. Choice mutton sheep are worth 6c and lower grades 5c; lambs, 6c.

Hogs—The market advanced half a cent during the week. Live hogs weighing 150 to 250 pounds are bringing 7 1-2c and 250 to 300 pounds 6 1-2c off cars.

Produce.

Butter— creamery — There is more cream offering and more creamery butter is being made. The demand is better than ever. People say they can depend upon creamery butter generally, more so than on dairy. Choice creameries, in bulk, fresh, is worth 26c; fresh churned, 27c.

Butter — Dairy — There is a large supply of poor quality offering, according to some dealers. They say the best is kept for local use in the country towns. There is very little market for medium stuff. Jobbers are paying 19 and 20c for good bricks and rolls; 14 and 15c for choice old tubs; fresh, 17 and 18c.

EGGS—Dealers say that eggs do not appear to be as plentiful as in other seasons. Demand is not as brisk as at Easter. Prices are holding firm. Winnipeg jobbers are selling fresh eggs at 15@16c.

DRESSED MEATS—There is a good demand for dressed meats and prices are firm. Veal is 1-2c higher and hogs have gone up another 1-2c. We quote: Beef, 7 1-2c for city dressed mutton, fresh killed, 13c; veal, fresh killed 8@8 1-2c; dressed hogs, abattoir killed, 10 1-2c; lamb, 15c.

POULTRY—Jobbers are paying: — Fowl, 10@12 1-2c; chickens, 11@12c; turkeys, 14.@15c; ducks, 10@11c; geese 10@11c.

HIDES—There is not very much doing in the hide business at present. Prices are steady at the advance noted last week. We quote: 8 1-2@9 1-4c for country hides; sheepskins, full wool 60@$11.00.

Grain and Feed

Millfeed—Bran $15.50 per ton in bulk, delivered to the trade; shorts, $16.50.

Ground feed—Oat chop, $27 per ton, delivered to the trade; barley chop, $18; mixed barley and oats, $23; oil cake $37 per ton.

Oats—No. 1 oats 37c; No. 2 oats, 36c per bushel in carlots on track, Winnipeg.

Rolled Oats—$1.90 per sack of 80 lbs., with the usual advance for smaller sizes.

Barley—No 3, 42c per bushel; No. 4, 37c per bushel, carlots on track here.

Flaxseed—$1.11 per bushel for No. 1.

Hay—Fresh baled, in carlots on track 56@7; loose hay, farmers' loads, $7@8.

TORONTO MARKETS

(Weekly Sun)

May 2.

There was a heavy run at the Toronto cattle market today, 75 cars being brought in, some containing 1,550 head of cattle, 136 sheep 737 hogs, and 285 calves.

Prices prevailed about the same as the preceding day at the Junction. Select importers were bringing $5.20, and choice butchers sold as high as $4.85. Prices were firm and trade was lively.

Buyers claimed that the quality of the exporters was not as high as they would like. Prices for exporters are, buyers say, running higher than the Old Country markets would warrant.

Select exporters were selling at $4.85 to $5.20; medium, $4.75 to $4.85; export cows, $4.00 to $4.50.

Choice butchers' are $4.70 to $4.85; medium, $4.25 to $4.60; common, $3.75 to $4.25; butchers' cows, are $3 to $3.75.

Heavy feeders are $4.65 to $4.75; short-keeps, $4.75 to 4.85.

Export bulls are $3.75 to $4; light export bulls, $3.70 to $3.75; and butchers' bulls, $3.25 to $3.74.

Choice stockers are $3.75 to $4; medium stockers, $3.25 to $3.50; dairy stockers, $3.

Choice milkers are $40 to $50, and medium, $25 to $35.

Springers are $25 to $40.

Calves sold from $5 to $6 per cwt. The quality was good, the majority being of Shorthorn blood.

Street Grain Prices

On the street in Toronto fall wheat is selling at 76 to 77c; spring, 74c; goose, 73 1-2c; oats, 40 to 41c; barley, 51 to 52c; rye and peas, 75c, and buckwheat ,55c.

Sheep and Lamb

Sheep sold from $5 to $5.25 on the Toronto market today. Bucks changed hands at $5. Spring lambs brought $8 to $6 each, but few choice ones were offered; $7 was offered for a really choice few, but was not accepted.

EDMONTON MARKETS

May 9

Grain and Feed

Prices have remained unchanged since last week, and deliveries are still rather light. Oats are from 22 to 25 and hay from $12 to $15.

Live stock and Poultry

Burns & Co quote beef, 3 to 3 3-4; hogs, 6 1-4; mutton, 5 1-2; veal, 5 1-2; chickens, 15c, dressed; turkeys, 18c, dressed.

W. F. Gronewald, of the East End Meat Market, quotes beef, 3 1-2 to 4; hogs, 6 1-2 to 7; mutton 6 to 7; veal 6 to 7; chickens, 13 alive; 18 dressed.

Produce

Butter and eggs are a little easier on the market this week. Quotations are: W. T. Gronewald, good dairy butter 25, eggs 15.

Whitelaw Co.—Dairy butter 25; eggs 15.

Hudson's Bay—Butter 25; Eggs 20.

Williamson Bros—Dairy butter, 17 1-2 to 22; creamery butter, 25, Eggs 15.

Garleny & Lessard—Butter 20 to 25; eggs 15.

Potatoes are a little stronger on the city market, and are bringing from 40 to 45c.

Hides—P. Burns & Co. quote hides at 6c, and Gronewald quotes 7c.

RED DEER NEWS

Red Deer, May 8.—It is extremely probable that another chartered bank will open here in the immediate future.

Mrs. W. Baird and her brother Lloyd Bannerman returned last night from Edmonton, where they have spent the past week.

Mrs. H. F. Forrest returned Saturday from Edmonton, where she was the guest of Mrs. St. George Jelliett.

Red Deer now has a serviceable street sprinkler, which is a boon these windy days.

R. E. A. Leach, inspector of Dominion Land Offices, inspected the local office on Saturday.

Some repairs have been executed to the C. P. R. station platform, which will greatly lessen the danger to pedestrians from trains shunting on the east siding.

Reilly Slinger, who played first in last year's ball team, was in town for a few days last week. He will probably decorate the diamond again this year.

At the weekly shoot of the Red Deer Gun Club Mr. Crawford captured the gold button, being tied with Dr. Plaxton 14 out of a possible 15. F. E. Wilkins won the silver button and Capt. Cottingham the bronze. In the competition for the Dominion Cartridge Co's medal Dr. Plaxton was victorious, getting 10 straight birds, a total of 24 out of 25.

Mr. A. Scoito, who for the past three years has been manager of the local branch of the Canadian Bank of Commerce, has been transferred to the head office. Mr. Sansen, formerly of Dawson City, will become manager here.

At the final meeting of the Baseball Club last night it was decided that as the conditions so far this year seemed very favorable for ball, it would be advisable to appoint a delegate to the Northern Alberta League convention at Wetaskiwin. Mr. R. B. Wellver was the unanimous choice of the meeting and was appointed delegate with full powers.

Work is being commenced on a new steam laundry that will employ in the neighborhood of twelve hands.

Geo. S. Wilkins returned yesterday from Lacombe, having been up on business in connection with the Blindman Power Co.

A. E. Farncombe, the Government surveyor, will take up his residence in Lacombe shortly.

AT THE OLD STAND.

Referring to the Calgary Herald's disquisition on the new Land Titles Act, the Albertan says:

"But two things can be drawn from "the same peculiar editorial, the first "being that no opposition can be offered to the Land Titles Act, as the "main features of the bill were not "attacked, the whole comment being "upon some statement made by the "attorney-general during the course of "the debate; and the second is that "the Calgary Herald by publishing "this belated silliness has given notice that it has again capitulated to "and taken up its old position as official mouthpiece of the Canadian Pacific Railway."

Shiloh's Consumption Cure, the Lung Tonic, has been before the public, and this, together with the fact that its sales have steadily increased year by year, is the best proof of the merit of

Shiloh

as a cure for Coughs, Colds, and all diseases of the lungs and air passages. Those who have used Shiloh would not be without it. Those who have never used it should know that every bottle is sold with a positive guarantee that, if it doesn't cure you, the dealer will refund what you paid for it. Shiloh

Has Cured

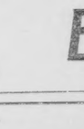

thousands of the most obstinate cases of Coughs, Colds and Lung troubles. Let it cure you.

"Last winter I coughed for three months and thought I was going into Consumption. I took all sorts of medicines, but nothing did me any good until I used Shiloh's Consumption Cure. Four bottles cured me. This winter I had a very bad cold, was not able to speak, my lungs were sore on the side and back. Six bottles of Shiloh made me well again. I have given it to several people and every one of them have been cured." Geo. Joseph, St. Hyacinthe, Que.

Harrowing Made Easy

BRADLEY HARROW CART

Wouldn't you rather ride than tramp behind the harrow all day? We've got the attachment that will let you do it. A large, comfortable oscillating seat about which there is no jolt, mounted on steel frame, with broad tire steel wheels 24 inches high. No interference with levers. It rides steady and can't drift on a side hill. The beauty about it is that while it saves you endless drudgery it adds but little, if any, draft to the horses. It's easy to get the proof of this. No trouble about fitting onto your harrow. Price is right. Come in and see it.

NOTICE
In addition to the powers at present applied for with the re-enactment of Chapter 191, Edward VII, notice is hereby given that application will be made to the Parliament of Canada at the present session thereof, for power to lay out, construct, and operate a branch line of the said railway from the main line near Skaist River in the Province of British Columbia, northerly crossing the South Thompson River at or near Kamloops, northeasterly passing Mye Lake through the Yellow Head Pass through the Province of Alberta to Gold Lake in the Province of Saskatchewan, near there to connect with the same line.
F. H. HONEYWELL,
Solicitor for the Applicants.

CITY AUDITOR PRESENTED REPORT FOR PAST YEAR

Conditions Of Edmonton's Finances As Revealed In The Annual Statements

Following was the report of the city auditor presented to the council Tuesday evening:

To the Mayor and Countil of the City of Edmonton:

Gentlemen — I have completed the Audit of the Books of Account of the City of Edmonton and hand you here with the following statements for the year 1906:

1. Cash receipts and disbursements.
2. Assets and liabilities.
3. General tax debentures issued.
4. General tax debentures sinking fund.
5. Special tax debentures issued.
6. Special tax debentures sinking fund.
7. Unsold debentures.

which are certified correct.

The question as to the depreciation has been fully gone into with your commissioner, Mr. Kinnaird, and whilst the depreciation of the concurrent assets has been left at its normal rate, certain realizable property has been dealt with as follows:

Old nuisance ground, no further depreciation, subject to revaluation.

Fire hall property, no further depreciation, subject to revaluation.

Water works, depreciation at the rate of 2 1-2 p. c. per annum, equivalent to 40 years, purchase sum amount charged against water operation account.

Electric light system, 2 1-2 per cent. depreciation, or 40 years purchase, and amount charged against electric light operation account.

Gravel pit, no further depreciation subject to revaluation.

Civic Buildings, 2 1-2 per cent. depreciation or 40 years purchase, and charged to City of Edmonton.

Telephone system, 20 per cent. depreciation of $17,000, being the purchase price of the original system. In fixing rate the condition of the old system and proposals to reconstruct the present telephone system were taken into consideration and the amount of depreciation, $3400, is charged against Telephone Operation account. When it has been decided as to what form the proposed changes in your system are to take, the rate of depreciation on the remaining part of your telephone debenture expenditure can be more accurately arrived at.

The acceptance of these rates of depreciation of course lies with the council.

In the real estate account the valuation has been increased by the sum of $2250, in this way bringing the value of the property held by the city up to its value as shown on your assessment roll.

On account of the late date (Jan. 19th, 1906) on which the report of your special auditor, Mr. A. C. Neff, was received, the consideration of the adoption of his recommendations has been left over to be dealt with this current year.

The balances standing to the credit of the Telephone Operation account, $4,-149.98, and the Electric Light operation account, $20,873.71 (which includes the balance of $11,669.21 carried down from 1904) and the Revenue Account $5637.29, as well as the debit balance against Water Operation of $4459.18, should be disposed of as your Council may direct.

I find that the books of account are well and carefully kept.

Respectfully submitted,
(Sgd.) H. R. MOUNTIFIELD,
Auditor.

MR. R. L. BORDEN, Leader of the Opposition

DELAYING BUSINESS

Ottawa, May 9.—Hon. F. Oliver again called attention to the extra work thrown on his department for making up useless returns asked for by the Opposition. Mr. Amea of Montreal asked for a mass of information contained in the annual report of the interior department. It would take two clerks a couple of weeks to prepare that portion of the return which would appear in the next annual report. The Opposition has developed a habit of ordering batches of papers and never doing anything with them. The business of the department is being blocked with work of this kind. The Auditor-General said that one return ordered from him would take six clerks three weeks to arrange.

G. T. P. CANOEMEN DROWNED

Port Arthur, May 10.—Wm. Thompson and G. Bouchard, canoemen employed in transporting supplies up the Nepigon river for the Grand Trunk Pacific, were drowned in Lake Helen yesterday. The bodies had not been recovered up to this morning.

DR. SPARLING IN THE SOUTH.

Birmingham, Ala., May 10.— Before an enmense audience of delegates to the Methodist General Conference south Rev. Dr. W. J. Sparling, of Winnipeg, Canada's fraternal delegate last night delivered his address to the conference. It was full of stirring words of greeting from the Methodists of the north to those of the south and his words were frequently applauded.

NOTICE TO VETERINARY SURGEONS.

The attention of all veterinary surgeons practising their profession in the Province of Alberta is drawn to the provisions of the Ordinance entitled "An Ordinance respecting Veterinary Surgeons," and amendments thereto, passed at the second session of the Legislature of the Northwest Territories of the 21st November, 1902, by which it is provided that "No person shall practise the profession of Veterinary Surgeon without having first obtained from the Provincial Secretary a license as hereinafter provided entitling him to practise Veterinary Surgery." In applying for such license it is necessary for such applicant to furnish the Department with the diploma held by him, or such other evidence as may be necessary to prove his right to practise the profession. Each application must be accompanied by a fee of $15 and should be addressed to the Honorable the Provincial Secretary, Edmonton, Alberta.

WHICH IS YOUR LARGEST FOOT?

YOUR feet are not mates—if they are average feet.

A pattern cut to fit the right foot perfectly will not fit the left foot properly.

Yet, most shoe-factories use the same pattern in cutting the uppers for both feet.

This saves half the cost of patterns—for the factory—at the expense of your foot-comfort.

The Slater Shoe Factory cuts every "upper" on separate patterns for either right or left feet.

This is only one of the many little costly details, unseen by the eye, that distinguish "The Slater Shoe" from others.

That extra work, for extra comfort, fit, wear and style, is not put in for conscience sake however.

Any shoe that is advertised and priced by its Makers, must give full value up to that price or re-act upon the manufacturer.

"The Slater Shoe" is the only shoe in Canada on which the retail price is stamped by the factory that produces it.

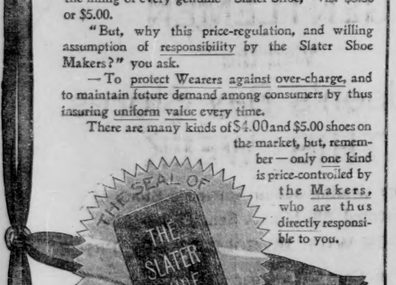

That Makers' price is the measure of its sure value, and a solid guarantee to the purchaser.

It will be found stamped, with a slate-frame, on the lining of every genuine "Slater Shoe," viz. $3.50 or $5.00.

"But, why this price-regulation, and willing assumption of responsibility by the Slater Shoe Makers?" you ask.

—To protect Wearers against over-charge, and to maintain future demand among consumers by thus insuring uniform value every time.

There are many kinds of $4.00 and $5.00 shoes on the market, but, remember—only one kind is price-controlled by the Makers, who are thus directly responsible to you.

ECONOMY AND EFFICIENCY COMBINED IN ADMINISTRATION

Minister Of Public Works Outlines Details of Public Works Expenditures---Member For Red Deer Warmly Compliments the Government and the Province

MINISTER OF PUBLIC WORKS

In replying to the eadar of the Opposition in the debate on the budget W. H. Cushing, Minister of Public Works, said:

Mr. Speaker—The only criticisms offered by honorable gentlemen opposite in connection with the estimates and the presentation of the financial statement by the honorable, the Premier, if they can be called criticisms, are directed mainly to the department that I have the honor to preside over.

I may say, Mr. Speaker, in connection with the matter of distribution of the money that has been recommended to be set aside for expenditure on roads and bridges in the province, that it would not be possible for the department to specify at the present time just where the money will be most needed in the province this year. It was allotted in a general way to each district, and at the time we were compiling these estimates the department had no information from a large number of districts as to their probable needs in the way of roads, but we had, however, a good knowledge of the bridges necessary, because it requires that we get the order in for steel early in the year, and before the first of the year we were obtaining information as to what steel structures would be required throughout the province this year, and early this season we placed an order for all the steel structures that we were likely to build this year, in order that we might have the material on hand at as early a date as possible, for the construction of these bridges. (Applause).

The estimated expenditure in connection with public works this year is $560,000. Out of that amount $267,000 will likely be spent on bridges, and the balance on roads. (Applause.) We do not know exactly where this money will be spent, but I assure the House that as far as the wisdom of the heads of the department will enable, we will do the best we can to spend the money in the best interests of every part of this Province. (Loud applause.)

Honorable members will notice that reference was made by the Premier to the amount that is in the estimates for well boring. At least two districts, one represented by my honorable friend from Macleod, and the other by the honorable member for Lethbridge, there are serious difficulties in obtaining water in those districts, that has come under our observation and it will be necessary to go to a considerable depth in order to put in test wells to ascertain if a sufficient supply of water can be obtained in those districts. This seems to be the only drawback in that part of the country, there being not much required in those districts for roads and bridges, and as it seems they have very little needs in the way of roads and bridges, that the Government may very well grant the assistance required for well boring. (Applause.) There are some constituencies in this northern portion of the province that will require a large amount of money to get roads fairly passable to reach the market, and I think it is only fair that the Government should grant what assistance it can to assist them in the south in obtaining a better water supply. (Hear, hear and applause.)

With reference to the bridges the honorable member for High River mentioned, I wish to say that the department had no information regarding those bridges until a little while before the session. We were aware that there was a bridge desired west of Okotoks on Sheep Creek, the structure the honorable leader of His Majesty's Loyal Opposition had referred to, but we did not place anything in the estimates covering that particular bridge. There was another one on the same stream that there has been objections filed in the department regarding its location, and at the present time I can hardly see that the Government would be justified in making an expenditure while there is already a bridge in the near vicinity. (Hear, hear and applause).

However, matters of this nature are under consideration and we will endeavor to serve the people in every district in the best way with the means we have at our disposal. (Applause).

I might say in regard to the question of specifying where we should spend the money at our disposal in each of the districts, or allot a certain sum to each constituency, in looking through the reports of the old territorial administration it would be very difficult to find out how much money was expended in each district yearly, and it would not be possible for the department just now to arrive at any satisfactory basis whereby they could make an estimate of what money should be spent in each constituency in the province. Personally I look upon the moneys that are appropriated in that way as belonging to the whole province, and it is the duty of the Government to distribute that money so that immediate needs of the people of Alberta will be looked after, as far as it is possible with the means at our disposal. (Loud applause). I am sure it will be the case in the province this year that more money will have to be spent in some districts than others, because the needs are greater. (Hear, hear). I know in one particular district that I have in my mind, that owing to the advent of a new railway it has changed the conditions and people have no roads or bridges to get to points where they do business and market their products.

In conclusion I wish to congratulate the honorable, the Premier of this province on the lucidity of its budget statement.

JOHN T. MOORE, M. P. P.

The member for Red Deer continued the debate and spoke as follows:

Mr. Speaker—I desire to congratulate the honorable the Premier of this fair province upon the able manner in which he has presented the revenues that we enjoy and the directions in which it is proposed these revenues shall go, (applause), and I have greatly enjoyed the presentation that he has made, which has been so clear and so comprehensive that we can all perfectly understand. I do not believe any one can find any fault whatever with the financial statements that have been laid on the table in this chamber. (Applause).

Now, Mr. Speaker, it is indeed a wonderful thing that we find ourselves today witnessing a contrast that inspires one. We go back a few years, and find that ten years ago about one quarter of a million dollars represented the total resources that were at the disposal of the administration of affairs to meet the needs of the entire North West Territories now constituting the two provinces of Saskatchewan and Alberta. Today these provinces get over five-fold, (applause) as much as the two then had altogether. (Continued applause.) Go back five years, and in 1901 from the figures that have been given we would find the total resources of these territories were $407,000 in round figures; and today we have nearly three times that amount. (Loud applause.) Nearly three times that amount placed at the disposal of this single province of Alberta. Surely things are moving rapidly, and certainly we have reason to look forward, as the Premier has stated, with great hopefulness to the future, and rejoice. (Applause).

Looking at the expenditures, I say that these figures read almost like a fairy tale, a wonderful romance, all the more fascinating because it rests upon substantial facts. (Hear, hear). It is a fulfilment of the letter and of the spirit of all the promises that were made by the Liberal party when it laid down its platform, (applause) and the vindication of the administration that represents that great party in Alberta today; (loud applause) for surely there has been economy and efficiency in the administration of public affairs. (Applause.) Looking at the record that has been given of the past, Mr. Speaker, for the closing months of the year in which we commenced to do business as a province, what do we find? A record of economy that is in accord with the policy of that party as laid down. (Applause.) As to efficiency, not one breath has been offered against the administration as to what has been done, nor do I believe that it can be. I regard this administration with which we are at present blessed, as an exceedingly wise and careful one, (applause) and one to which we can safely entrust the business of this great province of Alberta for a long time to come. (Continued applause).

Looking for a moment at the record of the past, namely, for the closing four months of last year, I notice a total expenditure of some $162,000, covering all the different departments of administration necessary to set and maintain the machinery of government in motion. Out of that amount $70,000 in round figures went from practical uses and purposes, that make for the benefit of the people in connection with that beneficent department of public works. (Applause.) Let me say that I go further, that I think this province is to be congratulated upon the men who constitute the administration. (Loud applause.) We are highly favored in the class and calibre of these men. We know that we can trust them to the last ditch (applause); men who are exceedingly modest in their demands upon this province at the figures which they have put on their services (continued applause). I am sure as we move along and realize the tremendous responsibilities and cares of their offices, we will feel it only an act of justice that there should be a more handsome recognition than they receive today. (Applause). And while speaking of the Ministers of the Crown I might say one word upon a subject that has impressed me greatly and that is the great wisdom shown by these honorable gentlemen in the selection of their lieutenants. (Applause.)

May I be permitted to say, Mr. Speaker, that I happen to know something of the gentleman who was selected as the Deputy Attorney General of this province, and I feel it only just and right to express my admiration of his ability and capacity, and say that Alberta has obtained a cheap bargain in Mr. Sydney B. Woods, Deputy Attorney-General, at $3000 a year (Hear, hear), and I do not think this province can expect to retain his services very long if that is to be the amount of compensation paid to him. Go to the city of Toronto; learn from the profession there, and you will find there was taken from the bar of the Province of Ontario one of the brightest stars to provide a Deputy Attorney General for this great province of Alberta. (Hear, hear). I may also add Mr. Speaker, that in the division of those who constituted the civil service staff at Regina, there fell to our lot what I regard as an exceedingly rich legacy, in the person of that stalwart, honest, energetic, capable, far-seeing cautious man, Mr. John Stocks, the Deputy Minister of Public Works for this Province. I say these things because I feel it will be the duty of this Government to treat man of their calibre and capacity handsomely, and in accordance with their very, very great merits. (Hear, hear.)

Moving forward,—look at the estimates themselves. There are just one or two remarks that I would like to make in connection with them. First glancing at the revenue, remember today we have a subsidy of $1,224,125 from the Dominion parliament. (Applause). It says a great deal for the administration of Alberta that they have been able to devise ways and means whereby that amount will be augmented by the very handsome sum of $360,000. (Loud applause). One other point I would like to call attention to is that while the honorable the premier has been very modest in showing that in accordance with the estimates at the end of the present fiscal year there will be a surplus of $283,000. It is only proper, Mr. Speaker, that we should remember that the $250,000 advanced to the Crameries is a loan, and therefore should be added to the $283,000. Thus we have a surplus according to the estimates on the table of this House of over half a million dollars at the end of 1906. (Loud applause).

Glancing over the figures and noting the proposed expenditure of $1,968,000, we find that the various departments of civil government, involving the services of gentlemen of the first magnitude, who occupying those great and important administrative positions that mean so much for the present and future welfare of this province, cost the province only $127,000. Therefore the expense of our civil government, as I would like you to observe, amounts upon the entire expenditure of about two million dollars to only about six per cent. This is a marvellously low rate of expense for the administration of such a vast sum of money. (Loud applause.)

In connection with the department of justice, there has been included the care of the insane. Thus, notwithstanding there are so many practical purposes to which the money requires to be applied, especially in that beneficent spending department of public works, we find that the care of unfortunates and the help of charitable institutions are not forgotten. (Applause.) I hope this province will always remember that money expended in that way when at their disposal is a policy that the good-hearted people of Alberta will cheerfully sustain. (Loud applause).

Reference has been made to the construction of the parliament buildings. I sincerely hope these buildings will be a credit to this province, as I am sure they will; so that people travelling westward will be induced to visit the capital of this province to see this structure, which I trust will be regarded as one of the finest architectural piles reared by any province in this Dominion (Applause).

Especially, Mr. Speaker, do I commend the appropriation for a provincial telephone system. (Applause). This is something which in my opinion, will work a revolution, and will contribute to the welfare and comfort of the people in an extraordinary degree. I welcome gladly the modest amount in the appropriations for the present year, for the purpose of encouraging this matter (Hear, hear.)

Now Mr. Speaker, I rejoice that I am able to stand in my place in this House today and in terms of strongest commendation say to the gentlemen who constitute the administration of the day that they have been faithful over a few things, and I predict that for a long time in the future they will be rulers over many things before they find their day of doing shall be done. (Loud applause). There is no mistake as to the greatness of the opportunities presented. As we look at these pages they contain figures which may at first be dull and meaningless to some but I tell you such is really not the case. They contain a bright prophecy, the administration of Alberta has taken in their hands one million nine hundred thousand blessings, and they will scatter them over our splendid province as the seed for an abundant harvest (Applause). Yes, I say, let us take those dollars, which, notwithstanding the fears of those who differ politically from us, are coming to us in ample quantity, and transmute them into blessings for the men and the women and the children of our land. (Loud applause.) Therefore I uphold the hands of the premier and his colleagues who are devoting themselves to the great work of giving this splendid province of Alberta an administration that is worthy of support because of its wisdom, prudence and efficiency. (Loud applause.)

CORNATION

(Correspondence)

Seeding is well advanced and farmers are bending their energies to the last notch putting in a larger acreage than ever before. They are getting ready to supply produce for the large army of men and horses, which will be employed to build the four transcontinental railroads which will pass through Edmonton, the capital and great metropolis of the west. Then on to the "wave washed shores of the Pacific Ocean."

Behind the Squaws scared cayuse
The locomotive smokes and raves
And surveyors now are laying out
Townsites on Indians' graves.

The greatest race that ever took place is being witnessed today between the different railroads which are all heading through the fertile belt as fast as men and money can build them. The C.N.R. has the start and it seems they intended to try and keep ahead. The G.T.P. and C.P.R. are following close behind. But Jim Hill says he will start at the coast and cross the mountains and reach the prairie within a year. This will eclipse anything yet that has been done in railroading. Numerous branch lines are also being built through the country in all directions. A new era has dawned. The great "Lone Land" will furnish homes for the homeless and land for the landless.

Lord Selkirk predicted nearly 100 years ago that 50,000,000 people would be living between the Red River and Rocky Mountains. He was a far-seeing man and lived before his time.

"He heard afar the muffled tread of
millions yet to be
The first low dash of waves where
yet
Shall roll a human sea."

Our American cousins are coming in by thousands eagerly grasping for a slice of the last west. It looks as if the United States will yet be annexed to Canada by the arts of peace instead of war. Goldwin Smith does not write anything more about Canada being annexed to the U.S. nor about the long narrow fringe along the Great Lakes. The grand old man has changed his views.

F. Febb has been buying hogs and cattle in this district and paying higher prices than ever paid by buyers before. If the present prices were maintained the hog industry would boom and an unlimited supply could be produced.

Instead of war, Goldwin Smith don't write anything more about Canada being annexed to the U.S. nor about the long narrow fringe along the Great Lakes. The grand old man has changed his views.

F. Febb has been buying hogs and cattle in this district and paying higher prices than ever paid by buyers before. If the present prices were maintained the hog industry would boom and an unlimited supply could be produced.

The days of the cayuse are numbered for farming purposes. The heavy horse is wanted for R. R. lumbering, and breaking up new land. And there will be a brisk demand for them for many years to come.

A beef ring is being organized here. Farmers have decided to handle their own meat business. The low prices paid for hogs and cattle lately and the high prices charged for meat have compelled the consumers here to try this for a change.

The Foresters have organized a lodge and a large number have joined.

R. Hopkins is building a residence on top of Horse Hill. Bob. has also erected a 14ft. wind mill which grinds his feed, saws his wood and pumps his water. Later on he will instal an electric plant and run his farm with electricity generated by the wind mill. He declares no power is cheaper than wind for many purposes.

Mr. Steers from Alberta College paid a visit to friends here a few days since. Mr. Steers thinks there is no better place for an outing than Cornation.

The A. S. of E. have organized a lodge and many of our best men are joining. Car loads of twine have been contracted for at reduced prices. Last year's twine deal not being satisfactory caused this course to be tried.

FRUIT GROWING IN ALBERTA.

With the view of stimulating the growing of large fruits in Alberta, the Departmen of Agriculture has issued a circular to persons known to have made a success of growing apples, crabs, plums and cherries. The circular requests information as to the age of the trees planted, the numbers and varieties and particulars as to protection, fruiting, etc.

The Department would also be glad to hear of others in the province who have been experimenting in this direction and who may not have received a circular.

Alberta is the only one of the prairie provinces which has been able to grow large fruits so early in the history of settlement, and it is to be hoped that a hearty response will be given to this attempt to obtain authentic information on such an important subject.

The Department proposes at an early date to begin a series of fruit experiments throughout the province in order to be able to afford reliable information to settlers as to the setting out of their orchards. The importance of such action can scarcely be overestimated since it will help to develop a side of farm life that is not yet possible in other Manitoba or Saskatchewan except in specially favored localities.

The prospects for fruit growing becoming general all over Alberta in a very few years may readily be estimated when it is considered that the Duchess and some other standard apples have been fruited at Medicine Medicine Hat, Lethbridge, Magrath, Cardston, Red Deer and Edmonton and at most of these points not for one year only but for a succession of two or three.

ARE YOU TIED?

If not, visit this store and take a look through the new stock of ties just opened. The patterns this year are more beautiful than ever before.

—The barber shops in the city will be closed tomorrow, Arbor Day.

—The city council meet to-morrow evening.

—The rifle ranges will be open all day to-morrow for any of the members who wish to practise.

—The Edmonton Public School Board meet this evening in Mackay avenue school.

—To-morrow, Arbor Day, being a holiday, all business places will be closed. Stores will be open to-night until 10 o'clock.

—There will be no practice of McDougall church choir on Friday evening, owing to it being a holiday.

—F. C. Bowles, traveling auditor of the C. N. R., arrived from Winnipeg last night, and is spending a couple of days at the companies' offices here.

—Captain O'Brien of Wetaskiwin, is in the city today, telling about the attractions of the busy little city down the line.

—The Imperial Bank is calling for tenders for the purchase of their old building. See advertisement in another column.

—To-morrow, Friday, is Arbor Day and a public holiday. There will be no issue of the Daily Bulletin. The semi-weekly edition will be published as usual.

—The W. S. Weeks Company have purchased a quarter section at Prince Albert, adjoining the city limits, which is being subdivided into lots and will be placed on the market in a few days.

—Mr. P. McMichael of the Dominion Radiator Co., is at the Alberta, accompanied by his wife. Mr. McMichael is on a trip through the west for business and pleasure.

—M. P. Thompson, of The Thompson Stationery Co., of Vancouver, is in the city today in the interests of his firm. Mr. Thompson was in Calgary in the early days, but this is his first visit to Edmonton.

—Mahoney's new hotel on First street, opposite the C. N. R. depot, is about completed, and will be open for business shortly. The hotel is a three storey structure, and the inside furnishings are of a very handsome finish.

—Gaul's oratorio, "The Holy City," will be given in McDougall Methodist church oon Tuesday evening, May 15, under the auspices of the choir. There will be a chorus of 50 voices under the leadership of Jackson Hanby. No admission will be charged.

—Albertan—"J. B. Martino came to his death on the C.P.R. tracks on Sunday night, May 6th, by throwing himself in front of engine 2101, which passed over his body." Such was the finding of the coroner's jury which investigated the death of the Italian who was killed at the depot on Sunday night last.

—John Stocks, deputy Minister of Public Works, is moving his family up from Calgary to become residents of Edmonton. They will reside temporarily on Fraser avenue, in one of Mayor Chas. May's houses, until the residence which Mr. Stocks is building on Third street is completed.

Arbor Day Attractions

To-morrow is Arbor Day, and a public holiday, and all places of business in the city will be closed.

Arbor Day was instituted as a day set apart for the purpose of planting trees and cleaning up and beautifying the yards. In the eastern provinces and the United States the holiday is celebrated on the first Friday in May, and in the States it is a general custom for the school children in the country to spend the day in beautifying the school grounds.

In Edmonton, however, while many may honor the day in the approved fashion there will be holiday attractions for those not so disposed. These attractions will not be few, and there promises to be something doing in the line of sports in the afternoon and evening.

The senior lacrosse club have arranged for a game with the Strathcona seniors, which will be played on the baseball grounds on Second street. The Edmonton Football Club will also play a game with Strathcona's newly organized team, and it is altogether likely that the Wetaskiwin baseball team will be here to play a return game with the seniors.

A cricket match will also be played on the exhibition grounds between married men and bachelors.

The rifle ranges will be open all day for any of the members who care to shoot.

Preliminary Hearing Postponed

The preliminary hearing of Geo. McLean, on the charge of murder, has been postponed until Wednesday, the 16th, at the request of the counsel for the prosecution. McLean has been taken to Fort Saskatchewan.

SOCIAL AND PERSONAL

Mrs. Scott is entertaining this evening.

Bishop Reeves came in yesterday from Athabasca Landing.

Hugo Ross, of Winnipeg, is at the Alberta.

Mr. and Mrs. Simmons left for Lethbridge this morning.

Mr. and Mrs. Woolf returned to their home at Cardstone this morning.

H. J. Montgomery and wife, of Wetaskiwin are registered at the Alberta.

G. W. Bowles, of Winnipeg, is a guest at the Pendennis.

Mrs. Scobel is having a golf party this afternoon.

Mrs. Riddel was another tea hostess on Saturday afternoon.

Mrs. D. W. Macdonald invited a few friends on Saturday evening.

Mrs. Emery entertained at progressive euchre Monday evening.

Wm. Buchanan, of Brockville, Ont., is registered at the Imperial.

Mrs. Hislop gave a bridge Friday afternoon, there being four tables.

Lieutenant-Governor Bulyea left this morning for a two weeks visit to Peachland, B.C.

Mrs. Grey left yesterday for a trip to England. She was accompanied as far as Winnipeg by Rev. H. A. Grey.

John Mitchell, of Tyrole, Ireland, arrived in the city last night, and is registered at the Pendennis.

Dr. and Mrs. G. N. Butchart, of Hibbing, Minn., are expected to arrive this evening to visit Mr. and Mrs. P. T. Butchart.

Honorable Mr. Speaker Fisher gave a dinner on Saturday night and also one on Monday night at the Alberta Cafe.

Mr. and Mrs. Mackenzie left for McLeod this morning. Mrs. Mackenzie has been in Edmonton during the whole of the session and during that time has won many friends here.

After the theatre last evening Miss Ally Sommerville had a supper party at which the following were present Misses Oliver, Taylor, McLean, Ewing and Messrs. Anderson, Robertson, Finn, Burley, and Landry.

Mrs. Hislop entertained again Monday afternoon at bridge. The hostess looked very pretty and animated in a grey collienne, and her sister Miss Oliver was very girlish-looking in a dainty white organdie. Miss Bamford won the prize for which five tables competed.

Mr. and Mrs. J. W. Woolf, of Cardston, entertained a few of their friends to dinner, at the Alberta Cafe last evening. Those present were Hon. C. W. and Mrs. Cross, Mr. and Mrs. M. McKenzie, of Macleod; Mr. and Mrs. W. C. Simmons, of Lethbridge, Mr. and Mrs. S. B. Woods, and Mr. and Mrs. Duncan Marshall.

Mrs. W. H. Cooper gave a very large tea on Saturday last in honor of her friend Mrs. Pace, who has since left for Vancouver where she will visit for the next few months. Mrs. Cooper received at the entrance to the drawing room wearing a very becoming dress of pale green voile. The tea room was in charge of Meadames Frank Sommerville and Jamieson, who were assisted by Misses Johnson, Sommerville, Taylor and Robertson.

Ball Team Goes to Wetaskiwin

The Edmonton baseball team will go south to Wetaskiwin to-morrow, Arbor Day, and will play the senior team of that town in the afternoon. The following is the line-up of the Edmonton team: Catcher, Regan, pitcher Vining, first base Dobson, second Cronn, third Maloney, short stop Deeton, left field Dr. Till, centre field McGural, right field Tait; spares Buckston and Sickle.

FOOTBALL GAME TOMORROW

The football game between the Strathcona and Edmonton teams takes place tomorrow afternoon on the baseball grounds on Second street.

LACROSSE TOMORROW

The first game of lacrosse is to be played tomorrow evening on the baseball grounds on Second street between the Edmonton senior team, and the Strathconas. The game commences at 6.30 sharp.
